Civil Rights Congress Pleads

Counsel for the Civil Rights Congress denied yesterday that the organization is or was Communist-dominated, and added that it was not a Communist-front group. The denials were made by Miss Rhoda Laks, defense attorney, at a hearing by the Subversive Activities Control Board at the United States Court House, Foley Square. The board is seeking to determine whether the congress should be required to register with the Department of Justice as a Communist-front organization.
